Welcome to Dentistry At Somerset!

Ensuring your safety during COVID-19

Thank you for helping to keep you and our team safe

Wear a mask: Please bring a mask with you to your appointment. You will be asked to wear a mask any time you are not receiving treatment.

Mobile check-in: Text or call from your car to let us know you're here. Stay outside until we let you know we are ready for you.

Screening at entry: You will have your temperature taken and be asked a series of screening questions before walking into the reception area.

Limited people in office: Come alone to your appointment unless you require special assistance.

Protective uniforms: Our doctors and team will be wearing special masks, face shields and jackets to keep you and our team safe. A new jacket is worn for each patient and safely disposed of afterward.

Touch-free office: We have removed all items that can collect germs from the reception area, treatment rooms and common areas. At the check-in and check-out desks you'll see plexiglass shields between you and our front desk team. Please keep any pens you use during your visit.

Disinfecting process: High-touch areas are disinfected throughout the day. At the end of each day the office is disinfected using a powerful disinfecting aerosol.
